

Hannah Patterson

Hannah Patterson has served as the Vice President & General Manager of the Care at Home business unit at Netsmart since October of 2024. With over 20 years of post-acute experience, she leads the strategic direction, service delivery, and growth initiatives that help care-at-home agencies advance their services beyond technology.

Her background spans healthcare operations, product management, implementation & consulting to assist agencies in digital transformation excellence. She has led cross-functional teams focused on scaling services, improving clinical outcomes, and integrating technologies to address the needs of aging populations and individuals with complex care requirements. She is a member of The Alliance, NPHI, National Council and ADVION. Through these affiliations, she advocates on behalf of community providers to support the post-acute continuum.
