“Our company has been using SynterPoint Coaching for the past few years for in-house leadership development cohorts. Many have said that this unique 12-month cohort has been very impactful in identifying weaknesses and strengthening their approach to challenges in all aspects of life. They have conveyed an increased sense of confidence, and willingness to take risks which are hallmarks of leadership. I personally have seen growth in those in the cohort that I work directly with. Confidence, steadiness, and boldness have all improved since you started working with the group.

We will continue to work with SynterPoint Coaching for those leaders in the future as part of our long-term leadership development curriculum.”
