

## Raienne Melton

Raienne Melton is the Director of Clinical Services of Professional Services for Axxess, the fastest-growing home healthcare technology company. In this role, she serves as a subject matter expert in hospice and palliative care, assisting in the creation of training and certification courses for these specialties. Raienne also supports patient engagement as a consultant for Axxess's CAHPS Solution, is an ANCC Lead Nurse Planner, is a member of the Alliance Education Workgroup, Emerging Models and Innovative Care Workgroup and is an Alliance Grassroot Ambassador. She is a recipient for the McKnight's 2026 Pinnacle Marketplace Influencer Award.

Raienne has 20 years of experience in hospice care with various companies. In one of her recent roles, she served as the Director of Clinical Strategy for Banner Health, where she was responsible for developing strategic education to support current and future business opportunities and redefining the delivery model for palliative care programming to improve patient outcomes.

Raienne earned her bachelor's degree in nursing from the University of Phoenix and is certified by the Hospice and Palliative Care Association as a Certified Hospice and Palliative Care Nurse (CHPN).
