

Mary Mihalyo, PharmD, BCPS  
Title: Chief Executive Officer, Delta Care Rx

## Bio

With more than 20 years of experience in hospice clinical pharmacy services and as the CEO of Delta Care Rx, Dr. Mary Mihalyo has revolutionized how pharmacy benefit managers provide quality, effective, competitively priced pharmacotherapy solutions to hospice and palliative care patients.

She also has helped educate and train a generation of pharmacists, having served since 1998 as an Assistant Professor of Pharmacy Practice at her alma mater, the Duquesne University School of Pharmacy, Pittsburgh, Pennsylvania. As an assistant professor of pharmacy, she participates in both didactic and experiential teaching with a focus on pain management and hospice and palliative care.

A pioneer in medication therapy management services for hospice providers, Dr. Mihalyo helped to found Delta Care Rx in 2012 to work exclusively with hospice and palliative care providers. She has built a corporate culture at Delta Care Rx focused on transparency, excellence, patient-centered quality care, education and support for hospice clinicians, and unyielding customer service.

Her motivation in forming Delta Care was to create an advocate for pharmacist support for hospice clinicians at the bedside while ensuring sustainable relationships between local hospice providers and community-based pharmacies. In her volunteer work, Dr. Mihalyo uses her knowledge and experience to support the underserved within her community and the mission of community-based hospice.

She is the former founder of the Therapeutic Connections Charitable Pharmacy, a not-for-profit charitable pharmacy located in Steubenville, Ohio, and a member of the Board of Directors and volunteer pharmacist for the former Ohio Valley Health Center also in Steubenville.

Dr. Mihalyo received her Bachelor of Science and Doctor of Pharmacy degrees from Duquesne University. She is a Board Certified Pharmacotherapy Specialist (BCPS) and a licensed pharmacist in the states of Ohio, Pennsylvania, and West Virginia.

Dr. Mihalyo is a frequent speaker to national, regional, and state hospice and palliative care conferences, often advocating for the vital role of clinical pharmacists working collaboratively with hospice and palliative care clinicians to ensure quality, effective pharmacotherapy interventions at the bedside. She has also published frequently in clinical and academic journals in collaboration with esteemed peers.
